Workshops are designed to accommodate 12-15 participants. Participants should be individuals who have direct interactions with clients and individuals who are receiving services at the health department. Anyone who interacts with individuals that are different from themselves will benefit from attending the daylong workshop.

Knowledge
Provides a cultural and linguistic competence knowledge base.

Awareness
Explore components of your own cultural background and the cultures of others.

Skills
Discover the importance of culturally and linguistically appropriate communication, assessments, and interventions.

In diversity there is beauty and there is strength.
-Maya Angelou
